## WELCOME TO BRUKAAN

## WELCOME TO COMMITMENT AND PERFECTION

Brukaan is a dynamic and multi-faceted organization equipped to provide **Ship Management, Quality Mangement, Crew Management and Customised Training Services** with cost effective solutions.

With Transparency, Commitment and Perfection as core values, Brukaan strives to exceed the aspirations of its customers each time, every time.

Our **Main Fleet** includes LNG/LEG/LPG carriers, IMO type I/II/III Parcel Chemical tankers , Handymax and Cape size Bulk carriers, Container vessels, MR/LR/ AFRAMAX Oil tankers etc.

Our **Offshore Fleet** includes various types of DP I/II vessels including AHTS, PSVs, OSVs, DSV, accommodation barges, Oil Rigs etc.

Many of our fleet vessels are young and energy-efficient with an age profile below the industry average.

We are a certified RPS company (RPSL-MUM-168) and are MLC 2006 compliant.

We are also certified under ISO 9001:2015 for Quality Assurance, ISO 14001:2015 for Environment Protection and ISO 45001:2018 for Occupational Health and Safety for providing Ship Management, Crew Management and Training Services.

We are an ATLAS approved Invigilation Centre for carrying out OPITO approved courses like Authorised Gas Tester and IMIST for Offshore fleet.

We are also a member of National Safety Council.

## OUR VISION

To become our Owner's most preferred MANAGER by providing Total Quality and Cost Effective Services through innovation and continual improvement.

## OUR MISSION

**In order to achieve our vision, our mission is to**

- ◆ Develop and deliver innovative solutions after understanding the needs of our customers.
- ◆ Consistently outperform our peers in providing highest level of quality and cost effective services.
- ◆ Invest in people and raise our standards to achieve sustainable growth while maintaining a safe, secured, healthy environment

# SERVICES RENDERED

## CREW MANAGEMENT

At Brukaan, we have established stringent Crew Management procedures with multi-layered interviews and risk assessment for the recruitment of human capital.

Our Officers and Crew are handpicked with highest level of commitment and quality consciousness and they maintain a consistent state of awareness and professionalism.

With an objective of **“Right Person for Right Ship at the Right time”**, our one stop Crew Management service includes Recruitment, Forward planning, Deployment, Payroll Management, Union Relationships & Negotiation, Budgeting & Variance Analyses, Pre-joining documentation & Verification, P&I claims, On-board performance appraisals, Processing of Flag states documents and Crew repatriation arrangement.

With our representation in **India, Myanmar, Philippines, Ukraine and Bangladesh**, we are well equipped to fulfil the needs of the owners in providing highly competent and certified crew for their vessels.

We have built a large pool of dedicated seagoing personnel by strongly emphasising on efficiency, effectiveness, pro-active approach, commitment and professionalism.

Our crewing database is having details of more than **40,000 seafarers** and is updated on a continuous basis with medical, certification and other information including crew training and their appraisals.

SHIP AND OFFSHORE

# SHIP MANAGEMENT

Our **Total Vessel Management Services** include Technical Management, Crew Management, Vessel Accounting & Payroll Management, Procurement services and System Analysis. We also offer Dry Docking, New Building Supervision and System Implementation.

It is our policy and commitment to operate all vessels in the safest and most efficient manner while meeting the requirements of the Owners, International and National regulations, Flag States, Classification Societies and Charterers. We have an excellent relationship with all Oil Majors.

## WE FOCUS ON MAXIMISING AVAILABILITY AND LOSS PREVENTION THROUGH:

- ◆ Close interaction between on board personnel and highly experienced shore-based engineering and marine teams.
- ◆ Effective Planned Maintenance and Procurement Systems.
- ◆ Integrated Software Systems covering all aspects of Ship Management, including the provision of operational, technical and detailed financial information in a transparent, readily available and secure manner.

## OUR STRINGENT VESSEL PERFORMANCE MONITORING SYSTEM INCLUDE

- ◆ Vessel Condition Assessment.
- ◆ Voyage Performance Monitoring.
- ◆ Planned and Projected Maintenance Schedule.
- ◆ Dry Dock Planning and Superintendence.
- ◆ Attendance to Surveys, Inspections, Audits, Certification and Vetting.
- ◆ Safe and Efficient Cargo Handling Operation.
- ◆ Resource Management and Cost Optimisation.
- ◆ Loss Prevention & Budget Compliance.

# ***CUSTOMISED TRAINING (BIMSAR)***

Training is an investment and a well trained crew is an asset to the organisation.

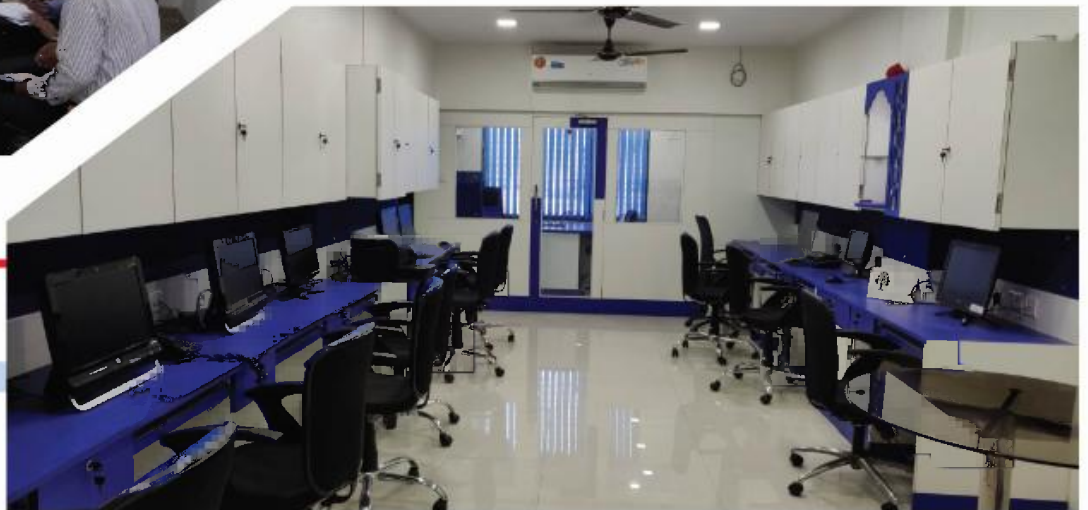

At **Brukaan Institute of Maritime Studies And Research (BIMSAR)**, we strongly believe that training of the staff is one of the most critical factors in achieving safe, economical and profitable operation of a vessel.

## **WELL TRAINED PERSONNEL ENSURE**

- ◆ Enhanced safety, security and environmental protection
- ◆ Reduced break downs and man-hour losses
- ◆ Profitable commercial ventures

Our training programmes are designed and developed in close consultation with shipboard officers, superintendents, vessel operators and regulatory bodies and industry experts. They are customised with practical knowledge, thorough study of gap analysis, case studies etc.
